B. Montaigne, who superintended the laying of the pipe line from the south fork of the Bonito to Carrizozo, is now engaged in extending the line further east. A large force of men are employed excavating for the pipe. By spring it is expected the line will be completed to Pastura, which is about 140 miles from the point of intake. The company may later further extend the line, depending principally on a sufficient volume of water.

New Mexico has eight thousand square miles of coal lands, representing wealth of which figures can convey no adequate idea to the mind. These coal lands are the key to a future industrial development that will cause this territory to rival any of the manufacturing states of the east.—Tucumcari Sun.

An exchange says: When the frost is on the whiskers and my overcoat's in soak, then this sort of open winter doesn't strike me as a joke, and I wish the good old summer might come sloping back once more—when I'd kick and raise a rumpus as I've always done before. I would use a smokey language as I tried to swat the flies, and I'd quote from wicked authors when the sweat rolled in my eyes; so I'll just pretend I'm happy, and I will not snarl or croak, though the frost is on the whiskers and my overcoat's in soak.

**WANTED.**—A man or woman on every rural route to represent publisher, and solicit new and renewal subscriptions on commission basis. Extra cash prizes and special inducements. Only one person will be engaged on any one route, and all the routes from one postoffice will be reserved for any one who will make a systematic canvass of them. No money wanted in advance, and you deduct your commission from the money collected. Write a letter or postal today, if interested. Address Simmons Publishing Co., Springfield, Ohio. 12-4-21
